

- One-piece, matt black painted, silk-screen printed finish body
- Case-hardened, tempered steel, copper- and nickel-plated dead-bolt, Ø5.5 mm. With “T” end which anchors to the base of the body when the key is turned
- Key locking mechanism with copper, nickel and chrome-plated zamak plug with 6 steel discs covered by a nickel-plate steel escutcheon
- Supplied with 2 inox stainless steel keys with ergonomic non-slip ABS grip. On request, it's available, as an accessory, the “reminder” cable (item 006) to avoid starting with the disc lock inserted
- **Innovative and original design, very compact, particularly suitable for scooters**

On request customised versions (item 164.P) with UV print or with PVC labels

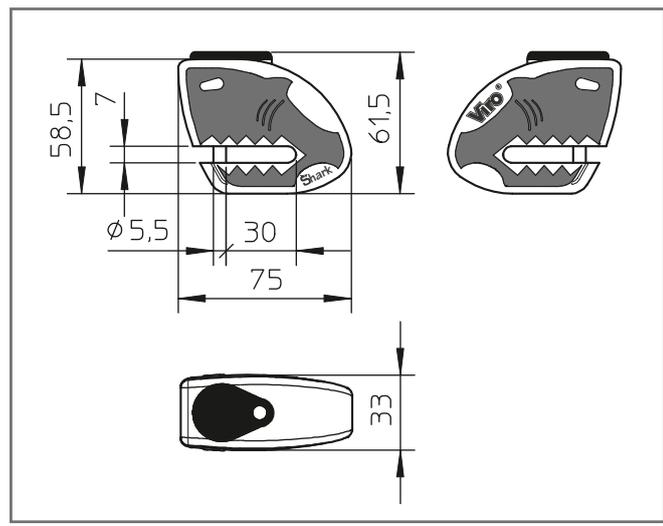

Supplied with useful nylon textile bag. Lock protected by weatherproof cap
